Native or Bilingual Proficiency

## INTERESTS

Learning new Technologies

Listening Music

## WORK EXPERIENCE

### Front End Developer

#### Digikull

08/2022

*Achievements/Tasks*

- **Movie Ticket Booking App** - To book movie tickets on the checkout page it will show seat no. and prize as well as the movie name, every section has its own ticket price. I have created this application with the help of react.js and using redux for state management and storing data.[Link-](#)
- **Thali Project** - Customer can order a thali and can customize items as he wants. I have made this project with react and using the redux library for storage or state handling.[Link-](#)
- **Animation Project** - Created a two-page animation project with help of HTML and CSS and used Javascript in it mostly animations created by CSS only.[Link-](#)
- **Music Flexbox** - A song playlist page using HTML and CSS and used CSS flexbox properties to create.[Link-](#)
- **Tip Calculator** - A UI for calculating the tip given by the customers, it'll add up the total tip and total count of customers and their names two. Created with react.js.[Link-](#)
- **Colorify** - In this project, there's an option to pick the unique color for each account and an option to delete or update it. I have used the Axios library for user authentication and for updating and deleting.[Link-](#)
